(SEM - I)

Subject : Proposal for project run under Community Engagement Project as per SPP University Curriculum S.E.(Comp Engg) (2024 course)

Group No. : 03

Name of Students :

Sr NO	Roll No.	Name of students
1	2231	Om Kumar
2	2218	Yash Muktarwar
3	2241	Yash Sadaphal
4	2251	Vaibhav Salunke

1. Title of Project : Use and/or Misuse Of Cell Phone.

2. Aim :

Mobiles are necessary instruments for communication, education, business, and entertainment, cell phones have become an indispensable component of modern life. Smartphones have evolved into multipurpose gadgets that offer immediate access to information and services thanks to advancements in internet connectivity. On the other hand, excessive or improper cell phone use can have detrimental effects, such as decreased productivity, health problems, academic distraction, safety worries, and even social isolation.

This proposal looks at the potential abuse of cell phones as well as its useful use, offering ways to reduce dangers and increase benefits.

3.Objectives:

- To emphasise the benefits of cell phone use for personal safety, education, and communication.
- To recognise typical abuses, such as excessive reliance, cyberbullying, reckless driving, and health hazards.
- To raise awareness of responsible usage among professionals, parents, and students.
- To recommend policies, training sessions, and public awareness initiatives that promote responsible and balanced mobile phone use.

4. Expected Outcomes:

- A greater understanding of the advantages and disadvantages use of mobile phone .
- The formation of balanced and appropriate usage patterns.
- A decrease in instances of becoming distracted while working or studying.
- safer driving and social/public behaviour habits.
- Giving parents and students the tools they need to manage online dangers like fraud and bullying.

Scope of the Proposal

This proposal will focus on:

- **Target groups**: Students, teachers, parents, working professionals.
- **Domains**: Education, workplace, family, and social life.
- **Issues covered** : Psychological impact, academic distraction, addiction, health hazards (eye strain, sleep disturbance), misuse in examination halls, and cyber-related risks.
- **Positive contributions** : Learning apps, digital payments, instant communication, safety in emergencies, and global connectivity.

4. Plan of Execution:[Timeline & Activities]

Sr No	Name of Activity	Duration/Period
1.	Literature Survey	2 nd & 3 rd week of July 2025
2	Analysis of data collected	3 rd & 4 th week of July 2025
3	Submission of abstract/partial report	4 th week of July 2025
4	Preparation of Presentation	4 th week of July & 1 st week of Aug 2025
5	Prepare schedule for Presentation to different location identified	1 st & 2 nd week of Aug 2025
6	Corrospondance for permission to identified locations	2 nd & 3 rd week of Aug 2025
7	Demo at a department	3 rd & 4 th week of Aug 2025
8	Seminar/demonstration/Presentation at locations such as school, college ,society, village, a part of community identified.	From 1 st week of Sept 2025
9	Submission of full Report	3 rd week of Sept 2025

5. Place of activities:

- 1.JSPM Prodigy School
- 2.JSPM Bhivarabai Sawant Polytechnic
- 3.Boys/girls Hostels
- 4.Society_____
- 5.BJS Jr/Sr college ,Wagholi, Pune.
- 6.Any other if _____

6. Resources:

- 1.Banner
- 2.Trasportation if any.
- 3.LCD Projector, white screen.

(Data for Points of table : 1,2,3)

A. Review of Literature (Brief)

Research shows both sides of mobile phone usage:

Pros: Smartphones boost worldwide communication, increase access to e-learning platforms, and offer safety through emergency notifications, according to studies.

cons: Overuse has been connected to scholastic degradation, anxiety, sadness, and poor sleep quality (report of WHO, 2021). One of the main causes of

accidents, according to road safety reports, is distracted driving caused by phones.

[Note :Please provide any collected analytical data, analysis, comparative result, graphs , remedies etc.]

B. Proposed Activities (Briefing in tabular form above)

- **Survey/Questionnaire:** Conduct a study on usage Cell phones among students and staff, society.
- **Workshops/Seminars:** Organize awareness programs highlighting healthy digital habits.
- **Policy Guidelines:** Suggest rules for mobile phone usage in classrooms, workplaces, and public areas.
- **Awareness Campaigns:** PPT presentation ,Posters prasentation, debates, and social media campaigns.
- **Counselling Sessions:** For students or individuals showing signs of addiction if possible with help of NGOs.

C. Beneficiaries

- Students : Increased concentration in class, less abuse.
- Teachers and parents : Better supervision and direction.
- Professionals : Improved time management and productivity.
- Community : A digital culture that is safer and more accountable.

D. Conclusion

Depending on how they are utilised, cell phones are strong instruments that can either benefit or hurt people. It is feasible to reduce misuse and fully utilise mobile technology for communication, safety, and education by raising awareness, putting policies into place, and teaching people how to use it responsibly.
